Professional Summary

QA Engineer and Jr. Project Manager with 5+ years of IT experience in telecom, software, e-commerce, and insurance environments. Strong foundation in manual testing, UAT, defect management, and QA processes, with hands-on experience in Playwright (JavaScript) for UI automation and Postman for API testing. Skilled in test case development, end-to-end test execution, Jira defect management, and SQL-based data validation. Experienced in requirements analysis, BRD creation, cross-functional coordination, and translating business requirements into effective test scenarios.

Pre-Professional Experience

Jr. Project Manager, *Red Core Solutions*

05/2026 – Present
Mandaluyong City

- Produced and maintained BRDs and translated requirements into test scenarios and test cases.
- Integrated Playwright test automation for cross-browser functional UI testing (Chromium, Firefox, WebKit) alongside manual UAT execution.
- Led manual UAT sessions and coordinated execution with development and business stakeholders.
- Logged and managed defects in Jira and participated in project planning and review sessions.
- Maintained development and testing timelines, schedules, and project documentation.
- Monitored milestones and facilitated meetings to follow up on action items and ensure alignment across teams.

Jr. Project Manager, *Great Deals E-Commerce*

08/2025 – 02/2026

- Created and maintained Business Requirement Documents (BRDs) in collaboration with stakeholders
- Translated business requirements into test scenarios and detailed test cases
- Executed manual UAT testing to validate system functionality and business workflows
- Coordinated UAT testing execution with stakeholders and development teams
- Logged, tracked, and managed defects and issues using Jira
- Participated in project planning, review, and testing execution sessions
- Created and maintained development and testing timelines to support project delivery
- Assisted in project planning and execution by supporting scope, timelines, and deliverables
- Prepared and maintained project documentation, including schedules, status reports, and meeting notes
- Monitored project milestones and helped ensure on-time delivery of project phases
- Scheduled project meetings and followed up on action items

- Supported senior project managers in day-to-day project coordination
- Ensured clear communication across cross-functional teams (business, QA, development)

Business Analyst/QA Auditing, *We Support Inc./Pru Life UK*

05/2024 – 06/2025

- Conducted UAT and manual testing of business processes; documented findings and provided daily execution status reports.
- Logged and managed tickets in Jira; coordinated project review and test-planning sessions with development and business teams.
- Performed compliance and process audits, checking transactions against policies, procedures, and regulatory requirements.
- Executed claims and data validation audits to identify discrepancies and ensure data integrity across systems.
- Documented audit findings, recommended corrective actions, and supported re-audits to close quality gaps.

Financial Advisor / Sales Consultant (Part Time), *Pru Life UK (Blue Fox)*

02/2022 – 02/2024

- Meeting individually with clients to determine their financial objectives, risk tolerance, income, expenses and assets
- Offering strategic advice on products and services, such as investments, insurance coverage and debt management tools
- Securing stocks and bonds and establishing progressive savings accounts
- Moving money from accounts per industry and federal regulations
- Performing market research to stay current with financial trends
- Preparing financial documents, such as income projections and investment reports
- Maintaining compliance with all rules and regulations in the financial industry
- Identifying and pursuing potential clients to maintain a strong client base

IT QA Tester, *Ethos and Innovations*

10/2021 – 02/2024

- Created and executed manual test plans and test cases for client projects to validate functionality and readiness for release.
- Managed issue tracking in Trello and produced daily status reports on test execution.
- Provided L1/L2 system support and participated in pre-sales solution presentations.
- Performed basic API testing to validate requests, responses, and status codes.
- Collaborated with BAs and developers to investigate defects and prepare releases.

QA Tester (Technical QA Specialist), *SSI Sagesoft Solutions INC.*

02/2021 – 09/2021

- Created and executed detailed manual test plans and cases for system and client projects.
- Managed defect reporting in Jira and provided daily status updates on test execution.
- Delivered client-facing presentations including AWS cloud and on-premises/firewall solutions for pre-sales support.
- Provided L1/L2 technical support and handled system inquiries from clients.
- Collaborated with development and business teams to define test scenarios and improve delivery quality.

QA Tester (Jr. Tester), TCOE Globe Telecom/WSI (We Support Inc.)

02/2020 – 10/2020

- Created and executed manual test plans and detailed test cases; produced clear status reports.
- Executed test cases, recorded results, and analyzed defects to inform development fixes.
- Logged and tracked issues in Jira, working with developers to drive timely resolution.
- Performed basic API validations using Postman, verifying endpoints, status codes, and response data.
- Participated in Agile/Scrum ceremonies (sprint planning, stand-ups, backlog grooming) and identified test scenarios for effective coverage.
- Performed manual testing of mobile applications to validate functionality, usability, and compliance with business requirements.

I.T. Staff Intern, Focus Media Audiovisual Inc.

01/2019 – 03/2019

- Provided Level 1 IT support for end users, diagnosing and resolving hardware and software issues.
- Performed routine maintenance and system updates to maintain operational stability.
- Monitored Insight TV systems and escalated incidents to reduce downtime.
- Documented incidents and support steps to improve team knowledge transfer.
